Skills Overview

- **Tools & Technologies:** Git, Docker, VS Code, Cursor, Canva, FlutterFlow, Firebase Studio,
- **Programming Languages:** Python, C, C++, Java, Dart
- **Data Science Tools:** Pandas, NumPy
- **AI / ML Engineering:** Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search, **Sentence-Transformers**, **Transformers (Hugging Face)**, **LangChain**, PyTorch, Prompt Engineering, **Speech-to-Text (Vosk)**, **Text-to-Speech (pyttsx3)**, OpenCV,
- **Cross Platform Development:** Flutter, FlutterFlow
- **Cloud Platforms:** Firebase, AWS ,Google Cloud
- **Backend Development:** **FastAPI**, **Celery**, Asynchronous Programming, **Redis**
- **Databases & Storage:** **PostgreSQL**, **Qdrant** (Vector DB), **Minio** (Object Storage), **FireStore**
- **Other Technologies:** Blockchain, IOT , Aurdino cloud
- **Additional Skills:** Problem Solving, DSA, OOP, Soft Skills, Fast Learner, 10x Engineer

EXPERIENCE

Deep Learning & Full Stack Intern — AI Leela, Nashik

Dec 2025 – Feb 2026

- Designed and developed an AI-powered SaaS platform (XeroxSaaS) using the MERN stack.
- Built secure backend APIs with JWT authentication and cloud-based file streaming.
- Integrated LangChain-based AI agents for intelligent document conversion and page analysis.
- Deployed scalable full-stack infrastructure using Vercel, Render, MongoDB Atlas, and object storage.

Projects

XeroxSaaS — AI-Powered Document Printing Platform

2026

Technologies: React.js, Node.js, Express, MongoDB Atlas, LangChain, Socket.io, Backblaze B2

- Built a full-stack SaaS platform for secure document upload, AI-based file conversion, and smart page counting.
- Integrated LangChain AI agent to standardize PDFs from multiple file formats automatically.
- Enabled real-time order tracking and notifications using Socket.io.
- Deployed frontend and backend on cloud platforms with automated cleanup and storage optimization.
- **Live Project:** <https://anti-print.vercel.app/>

AI-Powered Knowledge Hub with Conversational RAG System

2025

Technologies: FastAPI, React.js, Celery, PostgreSQL, Qdrant, LLMs, Sentence-Transformers, Docker

- Built a scalable RAG platform with async ingestion for documents, images, and videos.
- Implemented Qdrant-based vector search with metadata extraction and reranking.

- Developed a Focus Mode UI to restrict AI conversations to selected documents.
- Secured with Google OAuth 2.0 and deployed using Docker & Docker Compose.

Real-time 3D Conversational AI Agent

2025

Technologies: Unity, C#, Google Gemini API, Python, Flask, Vosk, pyttsx3

- Created an interactive 3D environment with a real-time conversational AI agent.
- Built a Python + Flask backend for offline STT (Vosk) and TTS (pyttsx3).
- Enabled dual-mode interaction via text chat and hands-free voice commands.
- Implemented a custom first-person controller for immersive gameplay.

Healthcare Optimization Platform

2024

- Built a cross-platform healthcare app for queues, bed tracking, and admissions.
- Used AI-driven algorithms for queue optimization and resource prediction.
- Integrated FHIR/HL7 standards for interoperable hospital data exchange.
- Deployed on a secure, scalable cloud infrastructure.

Brick Breaker Game (C++ & OpenGL)

2024

- Developed a classic Brick Breaker game with collision detection and scoring.
- Used OpenGL/GLUT for 2D rendering and game-loop management.
- Implemented modular components for bricks, paddle, and ball physics.

ESP8266-based IoT Home Automation

2024

- Built an IoT system for controlling home appliances using ESP8266.
- Integrated Arduino IoT Cloud dashboards for real-time monitoring.
- Used MQTT for low-latency, bidirectional communication.
- Implemented relay-based control for LED and fan automation.

Python Automation Scripts Collection

2024

- Created a certificate generator using Pillow and openpyxl.
- Built synthetic data generators using Pandas and Faker.
- Developed a Telegram bot for parallel file downloads.
- Automated data workflows and file handling using Python.

Hand Sign Recognition using CNN & Computer Vision

2024

Technologies: TensorFlow, Keras, OpenCV

- Trained a CNN on custom hand-sign datasets with real-time OpenCV detection.
- Applied augmentation & preprocessing for improved generalization.
- Built a live webcam-based gesture recognition system with confidence scores.

Handwritten Digit Recognition with Web App

Technologies: TensorFlow, Keras, OpenCV, Gradio

- Trained a neural network on MNIST for high-accuracy digit classification.
- Built a Python prediction script with visualization.
- Developed a Gradio-based web app for real-time digit recognition.
- Added user feedback support for improved usability.

And many more projects by me on my GitHub: github.com/Toshalzambare

Education

B.E. in Artificial Intelligence & Data Science - Pursuing

Savitribai Phule Pune University (2019 Pattern)

Year of Graduation: 2027

CGPA: 8.7/10

Higher Secondary School (Class 12)

Ord.Factory High School & Junior College, 2023

Percentage: 72.67%

Secondary School (Class 10)

ST.ALOYSIUS HIGH SCHOOL, 2021

Percentage: 80.80%

Extracurricular Activities

- Participated in Smart India Hackathon 2024.
- [Got 3rd prize in hackfusion Hackathon,2025](#)
- Frequently contributes to Open Source.
- [Flutter Co-Lead at Google Developer Groups on Campus at MET 2024-2025.](#)
- Cloud Lead at Google Developer Groups on Campus at MET.
- Participated in Kumbhthon 2025.

Certifications

- [Python for Data Science, NPTEL, 2024](#)
- [AWS Cloud Internship, DEC 2024](#)
- [Java Programming, Oracle Academy, 2024](#)
- [Overview of Data Visualization, Coursera, 2024](#)
- [Data Structure and Algorithm in Python, NPTEL,2024](#)
- [AI-ML Virtual Internship, Eduskill \(Google for Developers\), 2024](#)
- [Open Source Contribution, GDGC MET, 2024](#)
- [Name Genrator with Tensorflow ,Coursera, 2024](#)
- [AV AND VR, GDGC MET, 2024](#)
- [C++,Spoken tutorial, 2025](#)
- [C,Spoken tutorial, 2025](#)
- [Python,Spoken tutorial, 2024](#)
- More Certificates: [View Complete Certificate Folder](#)

Personal Details

- **Date of Birth:** 13th May 2006
- **Languages Known:** English, Hindi, Marathi
- **Hobbies:** Coding, Gaming, Learning new technologies.
